Recognized by: Indian Nursing council, New Delhi; Maharashtra Nursing council, Mumbai & Govt. of Maharashtra

Affiliated to : Maharashtra University of health sciences, Nashik.

Title of the Policy: Policy for Identification of Slow and Fast learners.

Scope of Policy: At the time of entry of students in the institute, to handle diversity of student and improve teaching and learning experience it is necessary to identify slow and fast learners. This helps the teachers to tune with students while teaching. The teacher can take proper decision and steps to improve the student's ability and performance. By consider this, MES College of nursing formulated policies for identifying and handling the student diversity in academics.

Definition of the terms:

Slow Learners:

Slow Learners are those who score $\leq 60\%$ in theory and Practical examinations.

Fast Learners:

Fast learners are those who scored above 60% in theory and Practical examinations.

Policy Points:

1. One Unit test for each subject after completion of 25% of syllabus. Students who scored $\leq 60\%$ are counted as slow learner and above 60% are counted as fast learners.
2. Based on analysis, remedial classes, guidance and counselling and various sessions for slow and fast learners.
3. The improvement in student performance should be analysed in Midterm examination/Class test 1 and the remedial classes and necessary management measures should be continued and modified for the student improvement.
4. Results analysis of Pre final examination/Class test 2. Remedial classes and necessary management measures should be continued and modified for the student's improvement.

Responsibilities:

Class teachers are responsible to segregate the students to Slow and Fast learners based on the results of examinations. Class teachers and the Subject teachers have to plan and conduct remedial classes based on students difficulty to learn subjects .Records of activities and the students attendance have to be maintained by the class teachers.
